

*I'd like to thank the California Table Grape Commission for the opportunity to receive this scholarship and further my studies without financial worries. I recently graduated from the University of California, Davis, with a Bachelor of Arts in Psychology and Spanish.*

*I intend to substitute for a couple of years and then apply to the master's program in school psychology at either Fresno State or the University of California, Berkeley.*

*Thank you once again. I am so grateful to have received this scholarship. It means a lot to me as a first-generation student, and being the oldest of three, it took a lot of burden off me.*

*Thank You,*

*Adriana Peña*
